

## Newsletter – February 2017

Hi all, and well done for braving one of the coldest and windiest summers in memory!

We had a great Xmas and New Year period with the largest turnout for the Family Day yet. The sailing was a great competition with a good variety of boats braving the winds. It was good to see the support inflatable in use to save one poor soul capsized outside the bay!

To warm you up we have two events that may take your interest.

### **Tour of Baddeley's environmental enhancement.**

For the last few years a significant amount of energy and resource has been put into the enhancement of the riparian strip along the Baddeley's creek by clearing and creating a walking track, weed control, planting and pest eradication. This has been achieved through a lot of hard work and funding from our Local Board. There is still lots more to do so please join us for a quick tour of work to date, plans for the future washed down with a sausage on behalf of the Ratepayers Association.

When: Saturday 4<sup>th</sup> February 2017  
Time: 5:00pm  
Where: Baddeleys tennis courts

Please bring firm walking shoes for the walk along the track and your own refreshments.

### **Track maintenance and preparation for winter planting.**

When: 9:30am Sat 25<sup>th</sup> February 2017  
Where: Outside tennis courts at Baddeleys Reserve

What to bring: Boots, Gloves, Long Shirts, Trousers  
Shears and saws  
Axes or grubbers  
Hat, sunscreen and a smile.

This event will be followed by a sausage and refreshments.

Many thanks to all involved in these long term community commitments as they are well recognised by our Local Board and it helps us secure future funding.
